SECTION-E

9. Case Study:-

The human evolution from early humans to modern ones underwent several changes. This process witnessed different lifestyles of humans. They advanced from hunter gatherers to food producers. They discovered many things which are still in use in a modified version. Subsequently, with the development of farming, they began to develop shelters for an extended stay in a place. Initially, they are believed to have originated in Africa and slowly spread to other parts of the world. Earlier these people lived in small groups and then shifted to large ones. With that, the concept of villages was formed and cultural adaptation became easier.

1. What was the initial lifestyle of early humans? 1
2. What do you mean by cultural adaptation? 1
3. What development allowed early humans to settle down and form communities? 2
